Find Me (feat. Dion Timmer & Excision)

Datsik

Stop chasing all the city lights
Breath me in, go on and take a bite
Count on me to make you come alive
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
You know where to find me tonightYou know where to find me tonightStop chasing all the city lights
Breath me in, go on and take a bite
Count on me to make you come alive
You know where to find me tonight
You know where to find me tonight
You know where to find me tonight
You know where to find me tonightThis shit's about to get heavy
You know where to find me tonight
You know where to find me tonight
