The System Only Dreams in Total Darkness

The National

Maybe I listen more than you think
I can tell that somebody sold you
We said we've never let anyone in
We said we'd only die of lonely secretsThe system only dreams in total darkness
Why are you hiding from me?
We're in a different kind of thing now
All night you're talking to GodI thought that this would all work out after a while
Now you're saying that I'm asking for too much attention
Also no other faith is light enough for this place
We said we'd only die of lonely secrets
The system only dreams in total darkness
Why are you hiding from me?
We're in a different kind of thing now
All night you're talking to GodI cannot explain it
Any other, any other way
I cannot explain it
Any other, any other wayThe system only dreams in total darkness
Why are you hiding from me?
We're in a different kind of thing now
All night you're talking to GodI cannot explain it
Any other, any other way
I cannot explain it
Any other, any other way
I cannot explain it
Any other, any other way
I cannot explain it
Any other, any other way
