

# Make the Most (feat. H.E.R.)

## Lonr.

Lookin' at your smile  
Starin' at your eyes, I could stay while  
Feelin' is a vibe (The vibe)  
We pick up like we never even lost time I could do this for days  
I would run a thousand miles for you  
I could do this many ways  
But I'ma fall fast and die with you  
Wanna chase that, goin' crazy  
I'm like, Oh my, but I'm laid back  
Gotta save that, time to face facts  
If you love me, girl, just say that  
I don't wanna leave your mind to wander  
I'll surround you, make you feel sure  
Got desire to make this right  
'Cause every single night, I wanna feel your soul (Oh)  
I wanna grow old with you, make the most with you  
That's the goal  
I wanna grow old with you, make the most with you (Yeah) I'll give you some time  
Whatever you want, you just say the word  
We can do the time (Ooh)  
Lock away the key, that's what you prefer I could do this for days  
I would run a thousand miles for you  
I could do this many ways  
I'ma fall fast and die with you  
Wanna chase that (Wanna chase that), goin' crazy (Goin' crazy)  
I'm like Oh my, (Oh my), but I'm laid back  
Gotta save that, time to face facts  
If you love me, girl, just say that  
I don't wanna leave your mind to wander  
I'll surround you, make you feel sure  
Got desire to make this right  
'Cause every single night I wanna feel your soul (Soul)  
I wanna grow old with you make the most with you  
That's the goal  
I wanna grow old with you make the most with you If we met in another life (Met in another  
life)  
If we met on a different street (Oh)  
Would you still be walkin' this direction?  
Would we still be walkin' at the same speed?  
Would we still put up a fight?  
Would you still make time for me?  
I hope so (I hope so)

I hope so, oh, oh, oh, oh I don't wanna leave your mind to wander  
I'll surround you, make you feel sure  
Got desire to make this right  
'Cause every single night I wanna feel your soul  
I wanna grow old with you make the most with you (Oh)  
That's the goal  
I wanna grow old with you make the most with you (Oh)Oh-oh  
Wanna feel your soul  
That's the goal, uh
