

# Never Be That High

## Randy Rogers Band

A hand-me-down hot rod holding down the interstate  
Life in the fast lane staying out too late  
Drunk on summertime  
Crazy and hard to hold A car full of dreamers parked in the parking lot  
Waiting on the world and some girls was a long shot  
Life was drug and we were hooked  
We didn't know We'll never be that high again  
Stoned out our minds on innocence  
Used to catch a buzz on the fact that it was Saturday night  
We'll never be that high again  
Tell me why did it have to end  
You're only young once but man you're not too old to try  
But you know you'll never be that high  
I'll always remember when I met Jim Bean  
Everybody laughed pretty hard at the first drink  
Barely got it down thought I'd drowned when it took a hold It hit me like a train to the brain  
feeling real tall  
Twenty minutes later Jim hit me like a brick wall  
Never felt as good as the first time that whiskey flowed We'll never be that high again  
Stoned out our minds on innocence  
Used to catch a buzz on the fact that it was Saturday night  
We'll never be that high again  
Tell me why did it have to end  
You're only young once but man you're not too old to try  
But you know you'll never be that high She kissed me in the back seat first time show me how  
Knocked me off my feet wish I had that feeling now  
I'll never be that high again  
Stoned out my minds on innocence  
Used to catch a buzz on the fact that it was Saturday night  
I'll never be that high again  
Tell me why did it have to end  
You're only young once but man you're not too old to try  
But you know you'll never be that
