

We Just Came to Party (feat. August Alsina)

Kid Ink

Let's skip the conversation
Got no patience
Lookin for a good girl
It's a special occasion
Bitches be like We just came to party, man we just came to party
We we we just came to party, we we just came to party
Niggas be like we just came to party, we just came to party
We we we just came to party, we we just came to party
Okay now we just came to party, started kinda late
Probably one into the morning, just live out the time
It's bout to ride down the highway, would hit a club
Find a hottie off of molly, fall in love
Man them niggas be like

But you still be in the line
I ain't even on the list, you can see me on flyer
Reason why I got yo girl on my fly, I swear to God
She be singing in the club like Mariah
Man them bitches be like
We can hit the studio, never seen a booth before
I can book a session, man I promise you'll get every note
She be like (what a dream)
