

Devil Pray

Madonna

Take my sins and wash them away
Teach me how to pray
I've been stranded here in the dark
Take these walls away
I've been swimming in the ocean 'til I almost drowned
Give me something I can believe in
Teach me how to pray
And we can do drugs, and we can smoke weed, and we can drink whiskey
Yeah, we can get high, and we can get stoned
And we can sniff glue, and we can do E, and we can drop acid
Forever be lost, with no way home
Yeah, we can run and we can hide, but we won't find the
answers
If you go down, then you'll get help along the way
But if you wanna save your soul, then we should travel all together
And make the devil pray
Ooh save my, ooh save my, ooh save my
Devil's here to fool ya
Ooh save my, ooh save my, ooh save my
Devil's here to fool ya
Ooh save my, ooh save my, ooh save my
Devil's here to fool ya
Ooh save my, ooh save my, ooh save my
Devil's here to fool ya
Mother Mary, can't you help me?
'Cause I've gone astray
All the angels that were around me have all flown away
The ground beneath my feet's getting warmer
Lucifer is near
Holding on, but I'm getting weaker
Watch me disappear
And we can do drugs, and we can smoke weed, and we can drink whiskey
Yeah, we can get high, and we can get stoned
And we can sniff glue, and we can do E, and we can drop acid
Forever be lost, with no way home
Yeah, we can run and we can hide, but we won't find the
answers
If you go down, then you'll get help along the way
But if you wanna save your soul, then we should travel all together
And make the devil pray
Ooh, sing hallelujah
Ooh, save my soul
Ooh, the devil's here to fool ya
Until my story's told
I said ooh, sing hallelujah
Ooh, save my soul
Ooh, the devil's here to fool ya

Until my story's told
I said ooh, sing hallelujah
Ooh, save my soul
Ooh, the devil's here to fool ya
Until my story's told
