Devil Pray

Madonna

Take my sins and wash them away
Teach me how to pray
I've been stranded here in the dark
Take these walls away

I've been swimming in the ocean 'til I almost drowned

Give me something I can believe in

Teach me how to prayAnd we can do drugs, and we can smoke weed, and we can drink whiskey Yeah, we can get high, and we can get stoned

And we can sniff glue, and we can do E, and we can drop acid Forever be lost, with no way home Yeah, we can run and we can hide, but we won't find the answers

> If you go down, then you'll get help along the way But if you wanna save your soul, then we should travel all together

> > And make the devil pray

Oooh save my, oooh save my

Devil's here to fool ya

Oooh save my, oooh save my, oooh save my

Devil's here to fool ya

Oooh save my, oooh save my, oooh save my

Devil's here to fool ya

Oooh save my, oooh save my

Devil's here to fool yaMother Mary, can't you help me?

'Cause I've gone astray

All the angels that were around me have all flown away

The ground beneath my feet's getting warmer

Lucifer is near

Holding on, but I'm getting weaker

Watch me disappear

And we can do drugs, and we can smoke weed, and we can drink whiskey

Yeah, we can get high, and we can get stoned

And we can sniff glue, and we can do E, and we can drop acid

Forever be lost, with no way home Yeah, we can run and we can hide, but we won't find the answers

If you go down, then you'll get help along the way

But if you wanna save your soul, then we should travel all together And make the devil prayOoh, sing hallelujah

Ooh, save my soul

Ooh, the devil's here to fool ya

Until my story's told

I said ooh, sing hallelujah

Ooh, save my soul

Ooh, the devil's here to fool ya

Until my story's told
I said oooh, sing hallelujah
Ooh, save my soul
Ooh, the devil's here to fool ya
Until my story's told
