

From a Distance

[Bette Midler](#)

From a distance the world looks blue and green, and the snow capped mountains white.

From a distance the ocean meets the stream, and the eagle takes to flight

From a distance there ia harmony, and it echos through the land.

Its the voice of hope, its the voice of peace, its the voice of every man.

From a distance we all have the love and no one is in need.

And there are no guns and no bombs and no disease, no hungry mouths to feed
