

# Arms Around Me

## Starley

It's been a while  
Since I have seen your face  
The years have treated you well  
We gave our best, but somehow we messed it up  
And I never could forget your love A familiar song to me  
It's perfect, it's synergy  
Can you feel it now  
Feel it now  
Let's go right back to the start  
A temporary departure, hear it now  
Can you hear it now?  
This feeling that you're giving me  
Ooh darling  
Is a bittersweet melody  
Ooh darling  
So if you gotta go at the end of the night  
Baby wrap your arms round me until we say goodbye This feeling that you're giving me  
Ooh darling  
Is a bittersweet melody  
Ooh darling  
So if you gotta go at the end of the night  
Baby wrap your arms round me until we say goodbye So much to say  
But I don't even mind  
If you only wanna stay the night  
Won't make you wait  
Cause this liquor in my veins  
Is takin me back in time  
A familiar song to me  
It's perfect, it's synergy  
Can you feel it now  
Feel it now feel it now  
Let's go right back to the start  
A temporary departure  
Hear it now  
Do you hear it loud This feeling that you're giving me  
Ooh darling  
Is a bittersweet melody  
Ooh darling  
So if you gotta go at the end of the night  
Baby wrap your arms round me until we say goodbye Ooh wrap your arms around me baby  
Ooh wrap your arms around me baby  
Ooh wrap your arms around me baby

Ooh wrap your arms around me baby This feeling that you're giving me  
Ooh darling  
Is a bittersweet melody  
Ooh darling  
So if you gotta go at the end of the night  
Baby wrap your arms round me until we say goodbye Ooh ooh ooh wrap your arms around me  
baby  
Ooh ooh ooh wrap your arms around me baby
