

Brother Song

Circa Survive

Every body wants to see the worst in you,
Shadowed by the actions of the path you can't undo,
Who'll get, who'll get left behind,
Who'll get, who'll get left behind, Oh there must be a way to understand the things you do,
Without getting too close to you,
Oh I can't find a reason why you wasted all our time,
Who'll get, who'll get left behind oh, And I won't share your anger,
It doesn't do me any good to feel,
And we can't shape our feelings the right way,
Until we learn things won't ever change no, Oh there must be a way to understand the things
you say,
Without letting it get to me,
Oh I may never get used to getting locked out of your life,
Who'll get, who'll get out alive,
And I won't share your anger,
It doesn't do me any good to feel,
And we can't shape our feelings the right way,
Until we learn things won't ever change no oh oh oh oh
