

# Locust (Advance Mix)

## Machine Head

Sweet caress  
Grazes my skin  
It's loveless  
These hooks sink in  
Behind an angel's disguise  
An insect preys  
Mandibles cut like a knife  
The reckoning  
Forming clouds, their shadow shrouds  
Louder the tattered wings they sound  
Descending down  
Down they come, the swarm of locusts  
Skies above converge to choke us  
Feast of souls, consume the harvest  
Young and old  
Suffer unto the locust  
Surrender  
These veins are bled  
Devoured  
Nothing sacred  
Strings pull the marionettes  
See how they dance  
Upon the wings that beget  
Our pestilence  
Forming clouds, their shadow shrouds  
Louder, the tattered wings they sound  
Descending down  
Down they come, the swarm of locusts  
Skies above converge to choke us  
Feast of souls, consume the harvest  
Young and old suffer unto the locust  
Bleeding from my eyes  
This plague is sent to erase us  
Bleeding from inside  
These vermin can't infiltrate us  
Faith appears and holds a candle  
Hark the angels sing  
Forming clouds, their shadow shrouds  
Louder, the tattered wings they sound  
Tear the veil, the lies derail  
Purity ever will prevail  
Trumpets sound the shattered crown  
Halos of truth now they surround  
The charade comes down  
Down they come, the swarm of locusts  
Skies above converge to choke us  
Feast of souls consume the harvest  
Young and old suffer unto the locust

Down they come, the swarm of locusts  
Skies above converge to choke us  
Feast of souls consume the harvest  
Young and old suffer unto the locust
