

# Zara (feat. Abir)

## Macklemore

[Verse 1: Macklemore]

I know you're troubled, girl

I seen you on Tumblr

February, dressing like a summer girl

Mini skirt on, no underwear (Whoop!)

I wanna take you shopping

Blow a bag of Prada

She say "Those clothes expensive"

So we end up at Zara

Late night, hit the city

And we go out to Target

Like why we go to Target?

This electric wheelchair's poppin'

You read bell hooks and Cornell West

You make me quesadillas when I'm stressed

And be like, "Boy, you better clean up the mess

And take out the trash before you come back"

Stay in, amen, don't fall asleep 'til the AM

Wake up in the morning and I'm prayin'

Sunlight made its way in, gave me angels

And I hold 'em, paint a mural so golden (alright)

And my girl, she sweet as hell

But we'll have a world star moment

Like "I'll fuck this bitch up" (whoa)

Yes you will, my darling (aha)

Type of girl fight for the family (she will)

And jump in if there's a problem (progress)

But not today, the ocean waves

I can't complain, I hold her waist

My only ace until we're old and gray

See, that's my baby

[Chorus: Abir]

Wave after wave, yeah, we're catching the vibe, yeah

Feeling alive, yeah

Ten out of ten, I know you down to ride, yeah

Always by my side, yeah

My baby, know I know

Had to hold you down for sure

You the only one, you the only one, yeah

You the only one, you the only one in my life

You the only one, you the only one, yeah

You the only one, you the only one in my life

[Verse 2: Macklemore]  
And if you feel some type of way, then just say that (say that)  
I'm on my way to make it back, talking ASAP (ASAP)  
And we can do all types of things in this Maybach (Maybach)  
Kick off your shoes, relax your feet, while I play that (play what?)  
That 90's R&B (alright)  
Yeah, House Party 3 (ok)  
Come spend the night with me (let's get it)  
And bring your toiletries  
You got your girls with you  
I brought my boys with me  
Playing that Shai Adina Howard, and that Jodeci (Jodeci)  
Do you want a back rub, do you want a massage?  
On my birthday, it's my birthday  
Do you think we can menage? Sike  
El Dorado inside, all suede  
Let's go half on some offspring  
Girl you flyer than an osprey  
We ain't doing a damn thing all day [Chorus: Abir]  
Wave after wave, yeah, we're catching the vibe, yeah  
Feeling alive, yeah  
Ten out of ten, I know you down to ride, yeah  
Always by my side, yeah  
My baby, know I know  
Had to hold you down for sure  
You the only one, you the only one, yeah  
You the only one, you the only one in my life  
You the only one, you the only one, yeah  
You the only one, you the only one in my life
