

# Heart Made Up On You

## R5

You said what you said  
When words are knives it's hard  
not to forget (to forget)  
But something in my head would't reset  
can't give up on us yet  
no woah (no woah)  
Your love was so real  
but pulled me in just like a magnetic field  
I let you go but something's taking the wheel  
Yeah, it's taking the Wheel  
Oh Woah  
My mind says no  
you're no good for me,  
you're no good  
but heart's made up on you  
My body can't take what you give to me  
what you give  
got my hea's made up on youGot my heart made up on youI should be making a break  
up all night thinking of  
planning my escape  
But this insomnia ain't going away  
and now I'm back at your place  
Oh No  
My mind says no  
you're no good for me,  
you're no good  
but my heart's made up on you  
My body can't take what you give to me  
what you give  
got my heart made up on youGot my heart made up on youLook what you did, what you did  
what you're doing to me  
You got me searching for the words  
like a silent movie  
Love can be, love can see you  
as someone I can trust  
But baby you only see my eyes  
are up on medicalGot my heart made up on youMy mind says no  
you're not good for me  
you're not good  
but my heart's made up on you  
My body can't take what you give to me  
what you give

got my heart made up on youMy heart  
says no...Got my heart made up on you  
(up on you)  
(up on you)  
Yeah
