

# Memory Lane (Single Version)

Minnie Riperton

I stumbled on this photograph  
it kind of made me laugh  
it took me way back  
back down memory lane  
i see the happiness, i see the pain  
where am i?  
back down memory lane  
i see us standing there  
such a happy, happy pair  
love beyond compare  
look a there, look a there  
the way you held me  
no one could tell me that love would die  
oh why did i have to find this photograph  
i thought i had forgot the past  
now i'm slippin' fast  
oh back down memory lane  
i feel the happiness, i feel the pain  
here am i back down memory lane  
i'm in the sunshine  
i'm in the rain  
i thought it was over  
here i go again  
the way you held me  
no one could tell me that love would die  
i don't wanna go  
travel up and down  
faster that the speed of sound  
back down memory lane  
you steal my foolish heart  
don't let this feeling start  
back down memory lane  
i don't wanna go  
back down memory lanesave me  
save meback down memory lane  
save me  
save me  
save me, save me, save meback down memory lane
