

# Put It Down (feat. Chris Brown)

## Brandy

I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it, I'mma put it, I'mma put it...

I'mma put it down...If you put it down right like the way I want it  
Play your cards right, maybe we can fall in love  
If you put it, put it, if you put it downIf you put it, put it, maybe we can fall in love  
I'mma put it down, you gon' fall in loveI'mma put it down, you gon' fall in love  
If you put it, put it, maybe we can fall in love  
I'mma put it down, you gon' fall in loveI'mma put it down, you gon' fall in loveIf you put it, put  
it, maybe we can fall in love  
Ooh the way you talk game, it's so tough  
Damn I love it all  
Even the way you flex  
That's what turn me on  
Ooh you know you make me weak  
Just cause the way you are  
Cause everybody in here know you're a star  
But still I'm letting you know  
I got the sweetest heart  
Any man that wants this, babe  
He gon' have to work hard  
From what I see, you got what I want  
That's just half the part  
Gotta see what you put on it  
To make sure you're the one  
If you put it down right like the way I want itPlay your cards right, maybe we can fall in love  
If you put it, put it, if you put it downIf you put it, put it, maybe we can fall in loveI'mma put it  
down, you gon' fall in love  
I'mma put it down, you gon' fall in loveIf you put it, put it, maybe we can fall in loveI'mma put  
it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it, put it, maybe we can fall in love  
I hope the chivalry ain't dead to you boy cause I'm grown  
Gotta pull up, and then come up with that when I see what I want  
Gotta go old school women sometimes  
Still keep it so, twenty twelve for me  
Cause I still beef it up  
And that I still I want you to know

Got the sweetest heart  
And even though he can buy that coupe for me  
He gon' have to work hard And now I see, you got what I want  
That's just half the part  
I gotta feel what you put on it  
To make sure you're the one If you put it down right like the way I want it Play your cards right,  
maybe we can fall in love If you put it, put it, if you put it down  
If you put it, put it, maybe we can fall in love I'mma put it down, you gon' fall in love I'mma put  
it down, you gon' fall in love  
If you put it down right, maybe we can fall in love  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it down right, maybe we can fall in love  
Ain't nobody put it down like me though  
Why are you playing? girl you know  
With all this money, and all your cake  
Girl you better stop, I got a big ego  
I'm sipping on that brandy  
That liquor comes in handy  
And girl I know you fancy  
But this party I'm financing  
She told me, it ain't even like that  
She been hating all night  
Her friend uptight, alright  
(so put it down) I took her at the club  
Told the girl she'd be right back  
Back to the crib  
And in the morning all this is worth it  
Baby go get your hair did  
And buy you a couple purses, you just perfect  
You, you, you, can be the one I call  
When having a bad day  
And I need a shoulder to cry You, you, you, might change the way I feel Teach me how to let the  
guard down  
Ain't gone lie, there's been times  
Thought the one I had  
Was the answer to my prayers  
Come to find out and he wasn't the truth  
And I got you, tryna tell me  
If I let you put it down...  
I'mma put it down, you gon' fall in love  
If you put it down right like the way I want it  
Play your cards right, maybe we can fall in love  
If you put it, put it, put it, if you put it, put it  
If you put it, put it, maybe we can fall in love  
(It's the B-R, to the E-E, to the Z-Y)  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it, put it, maybe we can fall in love

(It's the B-R, to the A-N, to the D-Y)  
I'mma put it down, you gon' fall in love  
I'mma put it down, you gon' fall in love  
If you put it, put it, maybe we can fall in love  
If you put it down right like the way I want it  
If you put it, put it, put it, if you put it, put it down  
If you put it, put it, maybe we can fall in love
