How the fuck I get rich? Who the hell said that life was a bitch?
I got too many bitches but one life to live
Fuck how they feel, if we got a problem, then money'll solve it
My dollars and followers match
I really started from scratch
Pistol and pack, now I get millions to rap
Influence the youngins to trap
Put my whole hood on the map, first the water was tap
Now a jet for a nap, now the motor in the back
Meet promoter with racks, keep her head in my lap
And my hand on the strap, ain't no dyke shit

On that Chief Keef, "I Don't Like" shit
