## Superfruit

La la la la la la la la la la  
La la la la la la la la la la Set the scene: I woke up from my bad dream  
Something's chasing me  
Is this home or am I in a movie  
With an unhappy ending?  
Wait around for a sign or a new sound  
So I can hit the ground  
Running, oh honey  
Would you like to come with me? I give it my everything, everything  
I give it with feeling, a sentimental man  
I give it my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can  
La la la la la la la la la la  
La la la la la la la la la la Shake it off, though it's not always easy  
I just need some time  
Kill me now with all of your kindness  
Help me change my mind Take me there, to a sign  
Or a new sound  
Look at us, we're off  
And running, oh honey  
To a place I'd rather be I give it my everything, everything  
I give it with feeling, a sentimental man  
I give it my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can  
I give it my everything, everything  
I give it with feeling, a sentimental man  
I give it my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can La la la la la la la la la la  
La la la la la la la la la la I give it my everything, everything  
I give it with feeling, a sentimental man  
I give it my everything, everything  
We'll dance on the ceiling  
With everything, everything, everything we can La la la la la la la la la la  
La la la la la la la la la la
