

# Live It Up

Ted Nugent

We need the time to rock away  
a little work and then some play  
workin' hard to feel good  
now it's time to really live it up Can't you see, I'm hap happy  
I just can't stop, Got to live it up Now's the time for really gettin it down  
ain't no need in you hangin' around  
skin to skin is how it should be  
it's tough to touch everything that I see  
Can't you see, I'm hap happy  
I just can't stop, Got to live it up solo  
Sure been fun but it's time to go  
just so we take you where you want to go  
the sled outside 'll take too long  
cause we can rock and light a song Can't you see, I'm hap happy  
I just can't stop, Got to live it up Got to live it up Got to live it up Got to live it  
up Got to live it up ...
