

Six Years on Dope

NOFX

I was a misanthrope on the end of a rope
Spent twenty years, six years on dope
Taking a piss while giving up hope
I lived a lifetime, six years on dope I was a human trashcan (Shortening my lifespan)
Live fast, die tan (I think that was the plan)
Saving all my money for a one way ticket to Afghanistan I was ezoobezon drunk (Strung out on
junk)
Live fast, die punk (I thought I was sunk)
From gin swillin' and fish tank penicillin
I was a Moron Bro with impetigo
A pleased as fuck Dog Patch Wino
Casual sex and herpes complex
Now I'm on interferon and valtrex I was a child adult, a walking insult
Every shot got more difficult
I was a teenage trashbin (A breathing mannequin)
A caustic cause (Who must've loved suffering)
Do pinhole eyes romanticize heroin? I was a moron bro, a circus sideshow
A dying slow Dog Patch Wino
