

Should Have Known

The Band of Heathens

(*Jurdi/Quist/Brooks)

Well I should have known better this time*
On our best days we'd go walking uptown
Other days we would roll in gold
When we work nothing could come between us
When we don't, baby it's cold, cold, cold
Well I should have known better this time
Said you left me standing at the scene of the crime
And I know, there ain't a reason or rhyme
Just that I should have known better this time
So go on and find yourself another
Just to sail in your ship of fools
The Mountain can't hold back the water
When you're promised the treasure but forgotten the jewels
Well I should have known better this time
Said you left me standing at the scene of the crime
And I know, there ain't a reason or rhyme
Just that I should have known better this time
