

# Higher Higher

## Justin Timberlake

[Intro]

Uh, stress is cruel, fame's a lie  
But you're special, on every level  
Success is cool, money is fine  
But you're special, another level[Verse 1]

Listen

I see the man, they wanna touch ya  
That's when I tell 'em, "Uh-uh"  
I guess I am a jealous lover  
'Cause I ain't sharin' with another

[Refrain]

Stress is cruel, fame's a lie  
But you're special, on every level  
Success is cool, and money is fine  
But you're special, another level[Verse 2]

I guess you can say I was lovestruck  
I met you, you was with your brother  
I had to go and get my cousin  
Tell a joke and then say, "What's up?"  
We both danced to "Lucky Star"  
Eyeing each other, then we're laughin'  
I might as well have been some butter  
Melting all over, girl, what?

Ooh, you are that thunder, lightnin'  
I need it to get out the darkness  
My body told me I was done, but  
I think it meant to say in trouble

[Bridge]

If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing[Chorus]

You said get used to change  
Nothing would be the same  
And we're climbing, more to gain

Gettin' higher, higher, higher  
To them we might look strange  
It's somethin' you can't explain  
And we're climbing, more to gain  
Gettin' higher, higher, higher  
We're climbing, more to gain  
Gettin' higher, higher, higher  
We're climbing, more to gain  
Gettin' higher, higher, higher[Refrain]  
Stress is cruel (stress is cruel)  
Fame's a lie (fame's a lie)  
But you're special (but you're special)  
On every level (on every level)

Sugar  
If it's for you, it can't be any old thing  
Ayy, sugar  
If it's for you, it can't be any old thing  
Hey  
If it's for you, it can't be any old thing  
It can't be any old thing  
If it's for you, it can't be any old thing  
I said come on  
If it's for you, it can't be any old thing  
I said, sugar, come on  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing  
If it's for you, it can't be any old thing[Chorus]  
You said get used to change

Gettin' higher, higher, higher

We're climbing, more to gain  
Gettin' higher, higher, higher  
We're climbing, more to gain

Gettin' higher, higher, higher  
We're climbing, more to gain  
Gettin' higher, higher, higher  
We're climbing, more to gain  
Gettin' higher, higher, higher  
Higher, higher, higher  
Ooh, higher, higher, higher
