

Little Minx

Dum Dum Girls

You look my way
Oh, that smile
Laying me down
On the line
Close my eyes
To what I know
You should never seek heaven below
What I seek
Defines what I think
Like a cell
Of this little minx
Shut my eyes
And hold my breath
Watch me as I run down deep
I struck you down, baby, please come around
I struck you down, baby, please come around
I struck you down, baby, please come around
Please come around
Lay it all down
What a vivid sound
Lay your heart on the ground
What a vivid sound
Baby, lay it all down
What a vivid sound
Lay your heart on the ground
What a vivid sound
What a vivid sound
What a vivid sound
What a vivid sound
