

Black Swan

Tori Amos

Ride on, ride on
Friends of the black swan
Ride on, ride on
Do you know where she's gone?Gumdrops and Saturdays
Did Eric call by the way?
He knew, he knew
And he knew where the pillow goesRide on, ride on
Friends of the black swan
Ride on, ride on
You know where she's gone
Buttercups and the fishing flies
The biggest thickest ever sky
I know they know something
I knowRide on, ride on now
Friends of the black swan
Ride on, ride on
You know where she's goneLittle green men do okay
It's the faeries' revenge they say
Gumdrops and Saturdays
Did Eric call by the way?
Ride on, ride on
Friends of the black swan
Ride on, ride on
You know where she's goneRide on, ride on, ride on
