If

[House of Heroes](#)

I could be in love if you wore that dress every day
With your hair just so and your eyes of grey
You'd make a beautiful bird on a line
A beautiful bride of Frankenstein
A beautiful drop of iodine
If you were mine, if you were mine, if you were mineI could be in love if the sun came out every day
Set the sky on fire and the city grey
I'd be there at the drop of a dime
If you were mine, if you were mine, if you were mineIf you were mine I'd tear the altar down of all that I'd lost to romance
If you were mine I'd risk my dignity if only to give love a chance
If you were mine, I'd have the world
I'd have the world if you were mine
And I could be in love if the sirens sang every day
You draw me closer to destiny
Give us this moment to shine
Me and my bride of Frankenstein
A beautiful bird on a line
If you were mine, if you were mine, if you were mine
Would you be mine? Would you be mine?If you were mine I'd tear the altar down of all that I'd lost to romance
If you were mine I'd risk my dignity if only to give love a chance
If you were mine, I'd have the world
I'd have the world if you were mine
If you were mine, I'd have the world
I'd have the world if you were mineOhh, if you were mine.
If you were mine, I'd have the world
I'd have the world if you were mine
If you were mine, I'd have the world
I'd have the world if you were mine
If you were mineIf you were mine I'd tear the altar down of all that I'd lost to romance
If you were mine I'd risk my dignity if only to give love a chance
If you were mine, I'd have the world
I'd have the world if you were mine
If you were mine, I'd have the world
I'd have the world if you were mineIf you were mine, I'd have the world
I'd have the world if you were mine
If you were mine, I'd have the world
I'd have the world if you were mine
If you were mine, I'd have the world

I'd have the world if you were mine.
