

# Only Human

## Morgan Page

Only human  
Only human Get out and I'll say its fine  
You want a beat to grind  
You want some words that rhyme  
Won't last, it'll make you blind I'll break you then I'm gonna take you  
I'll take you  
That's what I came here for  
To use you, abuse you After all we're only human, only human  
Flesh and blood, we're only human, only human  
After all we're only human, only human  
Flesh and blood, we're only human, only human  
You've got that urge again  
Those urges always win  
Don't fight, it feels so right  
Let's go, we've got all night I'll take you then I'm gonna break you  
I'll break you  
That's what I came here for  
To use you, abuse you After all we're only human, only human  
Flesh and blood, we're only human, only human  
After all we're only human, only human  
Flesh and blood, we're only human, only human You can run away  
I'm gonna take you  
Abuse you  
After all we're only human, only human  
Flesh and blood, we're only human, only human  
After all we're only human, only human  
Flesh and blood, we're only human, only human Only human  
You can run away  
Only human  
Only human
