

Hold Me Close

Overcoats

1]

His words don't mean a thing
It shows right through his teeth
He walks the world like I
Should know what it means
He's a man of armor
Don't blink, no need to please
But he still looks to me
To cuff his sleeves So hold me close 'til the night turns gray
Different faces but the song's the same
So hold me close 'til the night turns gray
Different faces but the song's the same
He looks different now
He hides beneath his clothes
He knows what he is
Wherever he goes
He's a man of warnings
Talks like I need to know
But he'll always on
The ground, I walk alone
