

# Rumors (Arcando Remix)

R3HAB & Sofia Carson

I could feel you  
Watching me  
All your friends are, tryna leave  
You hit me with the  
One line  
I know that you said about it a hundred times You got me all wrong  
Don't you know who, you talking to?  
You got me all wrong  
I heard about you, and what you do  
Don't you know the rumors?  
That talk about, talk about the humor  
They say you never gonna treat me right  
I know that you're forever, it's only one night  
One night  
Don't you know the rumors?  
That talk about, talk about me too much  
I know that your intentions are as bad as mine  
So let's pretend forever, it's only one night  
One night So I hit you with the  
One line  
To not to match up, match up  
Hope you realize that You got me all wrong  
Now you know who, you talking to?  
You got me all wrong  
I heard about you, and what you do  
Don't you know the rumors?  
They talk about, talk about the humor  
They say that you'll never gonna treat me right  
I know that you're forever, it's only one night  
One night  
Don't you know the rumors?  
They talk about, talk about me too much  
I know that your intentions are as bad as mine  
So let's pretend forever, it's only one night  
One night
