

Love Me or Leave Me Alone

The Lox

L-O-X

Damn baby make your mind up for-real
You going to love me or leave me alone? When we first met you knew that I was still in the
streets

Our first time at the movies I was carrying heat
First you didn't mind that I liked to smoke, drink alot of liquor

Made a living off of bagging up coke

Hit that Louie store get two of whatever you want
Cop that speedy and that Louie monogram in the front

Then I got famous, signed with Puff

You was happy but still hated my tours and stuff
Every bitch that I took a picture with, conspicuous

Text message you ain't shit, and who is this

It was all love back in the days, until I blew up

But you don't understand my ways

Ayo Kiss I got a girl that's bad

But she don't understand my ways

Arguing days after days after days

Well I could dig it

Ayo Styles I got a girl that's bad

But she don't understand my ways

Arguing days after days after days

Well I could dig it Mellow off the la la, leaving is not an option

Cool like Melo and La La when we be rockin'

Shit get bad we like Stevie J and Joseline

Starring at the dolphins, playing some Jannis Joplin

Hotel balcony, OT arguing

She ain't budging nigga and I ain't bargaining

I'm so high I forgot why we was arguing

I'm just trying to make up

Make love and fuck, fuck and make love

Then I'm chilling on the tub, weed bud to break up

Love is so much I ain't trying to break up

Sometimes she be tripping the minute I wake up

Ayo Sheek I got a girl that's bad

But she don't understand my ways

Arguing days after days after days

Well I could dig it

Ayo Kiss I got a girl that's bad

But she don't understand my ways

Arguing days after days after days

Well I could dig it Sometimes the easiest way is just to let go

Sex after the argument is usually the best though
Brining up shit I did in the past, that's stressful
It's all good though, as long as them checks flow
You know what they say when you search you find something
That groupie shit is old school, not something?
Sit down, have a convo, mine fuck them
Pack my bags, spend the rest of my time puffing
I could take the bruises, not the accusing? that you using, becoming amusing
Screaming and shouting, frowning and pouting
It ain't that hard, just love me or be out then
Ayo Styles I got a girl that's bad
But she don't understand my ways
Arguing days after days after days
Well I could dig it
Ayo Sheek I got a girl that's bad
But she don't understand my ways
Arguing days after days after days
Well I could dig it
