

# Checking for You

R. City

I've been missing you lately  
Do you think about me, baby?  
Know I can't come over  
Yeah these streets so crazy  
I don't wanna be broke  
Gotta make it or take it  
I gotta get my love  
I gotta feed these babies  
So if I ring your cell  
Just making sure that everything is blessed  
Girl you're always on my mind, can't you tell  
No matter where I go, no matter what me do  
Me always check for you  
'Cause I'm just calling for you darling  
First thing in the morning  
I'm checking for you  
I don't want nothing, but I've been hustling  
Just in case something happens  
I'm checking for you  
I'm checking for you, I'm checking for you I don't care what demand them Posted upon di gama  
Just tryina find ways, to get off of di Ghana  
Even through all of that  
You're running through my head  
Out here doing what I gotta do to Make sure you straight  
So if I ring your cell Just making sure that everything is blessed  
Girl you're always on my mind, can't you tell  
No matter where I go, no matter what me do  
Me always check for you  
'Cause I'm just calling for you darling First thing in the morning  
I'm checking for you  
I'm checking for you, I'm checking for you  
I don't want nothing, but I've been hustling Just in case something happens  
I'm checking for you  
I'm checking for you, I'm checking for you  
Every day I'm out here on my grind On my job going hard like it ain't no tomorrow  
It's a whole lot of money out here  
All I'm tryina do is get my cut like a barber  
And you know that I must make sure you right  
While me ah work all through the night  
Should have never have to lift a hand up for anybody  
'Cause I'ma hold you down for life  
And I just wanna know how you doing

Sometimes I need to know how you doing  
So make sure you answer the phone  
Make sure you answer it down  
Let it ring, let it ring  
I just need to know that you good  
I would be there with you right now if I could  
You don't have to ask cause you know that I would  
So tell me what's good  
'Cause I'm just calling for you darling  
First thing in the morning  
I'm checking for you  
I'm checking for you, I'm checking for you  
I don't want nothing, but I've been hustling  
Just in case something happens  
I'm checking for you  
I'm checking for you, I'm checking for you
