

Break Them Down

Graham Parker & The Shot

The missionary's position is clear, break them down
Converting the savage Panare, break them down
And purge them of all of their sins, break them down
Whilst making funds trading jaguar skins, break them down
The new tribe's mission and the lord, break them down
Are gonna fit them with a vinyl spinal cord, break them down
In the jungle in Venezuela, break them down
Checked shirts, radios, barbed wire, break them down
Ooh when they teach those savages to believe
We'll all be one step closer to world harmony
Break them down
Break them down
They rewrote the lord's prayer, break them down
And made the death of Christ the work of the Panare, break them down
Nearby Darwin was hanging by his throat, break them down
The fundamentalists were starting to gloat, break them down
Ooh when they teach those savages to believe
We'll all be one step closer to world harmony
Break them down
Break them down
Losing their loin cloths as they gain ethnocide
All dressed in Western clothes and god will be their guide
Break them down
