

Steal Your Heart

Augustana

You meet me at the water
Where all your dreams come true
Tell your sisters and your brother
But I'll be waiting for you Heaven, now that this is over
Without your signature cold
Say you pray for each other
Someday I'm gonna steal your heart I'm gonna steal your heart
I'm gonna steal your heart away
I'm gonna steal your heart
I'm gonna steal your heart away
Our love is like an ocean
Take it down to the depths
And I'm taking you with me
Taking every step to steal your heart I'm gonna steal your heart away
I'm gonna steal your heart
I'm gonna steal your heart away Life is like a shadow
It never stays in one place
I'm standing near anyway
Everyone will try to steal your heart
I'm gonna steal your heart away
I'm gonna steal your heart
I'm gonna steal your heart away
I'm gonna steal your heart
I'm gonna steal your heart away
