

Take Me in Your Arms (Original Club Version)

[Lil Suzy](#)

Lil Suzy

Miscellaneous

Take me in your arms

You came and turned your look my way

What else can I say

Love was in my eyes

You came and made my life complete

With your love so sweet

You gave your love to me Take me, take me in your arms

And don't you let me go

I need you more and more

Repeat

Your love is all I ever need

You're my destiny

This love was meant to be

We'll find a paradise for two

A place for me and you

We'll make our dreams come true
