

# Beer Can Chicken

Kenny Chesney

Whoa Whoa Seems like everything that's good in life  
You gotta wait for  
A cane pole bobber dancing on the lake  
In Tennessee  
It's like sitting there really early, just to watch  
A morning sunrise  
All in know is what it does to me It's like Friday night  
Workin on a three-day weekend  
Somethin' in a jar just made for sippin'  
It's feelin' like a feel good time bomb tickin'  
Standin' round waiting on beer can chicken  
It's the little things that make life worth livin' Whoa Whoa  
That ole jukebox playin' in the background  
takes me somewhere  
Back to some ole late night country highway radio  
And I got all my friends hangin' out sitting right here with me  
And I get this ole feeling I just know It's like Friday night  
Working on a three-day weekend  
Somethin' in a jar just made for sippin'  
It's feelin' like a feel good time bomb ticken'  
Standin' round waitin' on beer can chicken  
It's the little things that make life worth livin' Whoa  
Would you look at this night that we've been given  
Whoa  
It's the little things that make life worth livin' Would you look at this night we've been given  
It makes life worth livin'  
It's like Friday night  
Workin' on a three-day weekend  
Somethin' in a jar just made for sippin'  
It's feelin' like a feel good time bomb ticken'  
Standin' round waitin' on beer can chicken  
It's the little things that make life worth livin' Turn it up, let's go  
Pretty girl dancing barefoot by the seashore  
Dirt track, turn 4  
Pedal to the medal gonna show you what we're here for  
Six strings, good songs  
Ole wooden boat with a skull and crossbones  
A full moon, that's right  
Green grass, good life  
Just waitin' on high tide  
And beer can chicken  
Just look at this life that we've been given
