

# Want Me Back

BENEE

Tell me what you want from me, boy  
Why you gotta act so needy?  
Maybe you were what I'm missing  
Maybe I crave your affection  
Everything you say, cuts me, boy  
Why don't you just let me heal you?  
Why do I feel like I'm searching?  
Without you, boy, I feel nothing  
Tear me down, you hurt me  
Change your mind, want me again  
Playin' with my heart in utter boredom  
Hide again  
Tell me that I'm all that you need, babe  
(Tell me that I'm all that you need, babe)  
Longing for my company, hey  
(Longing for my company, hey)  
You're pushing me 'round  
Look at what I'm left with now, boy  
Tell me that I'm all that you need, babe  
(Tell me that I'm all that you need, babe)  
Longing for my company, hey  
(Longing for my company, hey)  
You're pushing me 'round  
Look at what I'm left with now, boy  
I can see you kind of need me  
You've been having trouble sleepin'  
Maybe we are meant to be here  
Maybe I want us to happen  
Sometimes I wish you would leave and  
We would never speak again, but  
Then there's something 'bout you, boy, I  
I kinda [?] for you  
Tear me down, you hurt me  
Change your mind, want me again  
Playin' with my heart in utter boredom  
Again  
Tell me that I'm all that you need, babe  
(Tell me that I'm all that you need, babe)  
Longing for my company, hey  
(Longing for my company, hey)  
You're pushing me 'round  
Look at what I'm left with now, boy  
Tell me that I'm all that you need, babe  
(Tell me that I'm all that you need, babe)  
Longing for my company, hey  
(Longing for my company, hey)  
You're pushing me 'round

Look at what I'm left with now, boy  
Too late to apologize  
Movin' on now, with other guys  
Deleted all your messages  
You're nothing but lies in my head  
Should've never hurt me, boy  
Wasted your shot  
Now I have moved on  
Tell me that I'm all that you need, babe  
(Tell me that I'm all that you need)  
Longing for my company, hey  
(Longing for my company, hey)  
You're pushing me 'round  
(Pushin' me around)  
Look at what I'm left with now, boy  
(Left with now)
