

# These Heights (feat. Caroline Pennell)

## Bassjackers & Lucas & Steve

Some kind of magic that lies underneath  
Could have been tragic but we found the peace  
Up to the mountains and under the sheets we go, we go  
Work hard and sleep less and wait for the dream  
No time to regret what we haven't seen  
Let downs and freak outs and storms clouds and us below  
We made it out, made it out Good life with a couple bad times  
A million mistakes, but we made it out fine  
This life, yeah, it always finds a way  
To lead us to these heights  
To lead us to these heights No explanations for coming this far  
The things turned around when I turned on my heart  
I'll thank the sun when he heals all my scars for good, for good  
Thought it was impossible, but we always find a way  
Of lookin' out, lookin' out  
Over these heights that we never thought we'd say  
We made it out, made it out Good life with a couple bad times  
A million mistakes, but we made it out fine  
This life, yeah, it always finds a way To lead us to these heights  
To lead us to these heights  
Lead us to these heights  
Lead us to these  
Lead us to these  
Lead us to these heights  
Lead us to these heights  
Lead us to these heights  
Lead us to these  
Lead us to these  
Lead us to these  
To lead us to these  
Good life with a couple bad times  
A million mistakes, but we made it out fine  
This life, yeah, it always finds a way  
To lead us to these heights  
To lead us to these heights
