

Out of Frequency

The Asteroids Galaxy Tour

Now I got you on my mind
Cause I know, now you're leaving town
I just wanted you to say
"Why don't you come,
Or should I stay?" You're going away
I said it's okay.
Why don't I ask you
not to come, and stay?
Come and stay...
****Chorus****
Wait'in every day
till my mind go melt [?]
or you ever come back
Stick around till the sky turn black
And I hear you say
"I'm on my way."
Got me under your thumb
what a big fun
come around be my moon and the sun
till the day that we're done
****Chorus**** Am I blinded by the dark?
I feel strange now that we're apart
I can't seem to find the time
For any joy or any thought of light
Are you okay?
Tell me you're okay?
I'm afraid your [?]
we would ever [?]
crash my way [?]
crash my way****Chorus****
Wait'in every day
till my mind go melt [?]
or you ever come back
Stick around till the sky turn black
And I hear you say
"I'm on my way."
Got me under your thumb
what a big fun
come around be my moon and the sun
till the day that we're done
****Chorus**** Now I heard you're coming home.
Well I won't [?]

or peek out the door I will meet you in the street
Suddenly, out of frequency
I've been okay,
yeah, I've been okay. Why don't you
[?] and
Go and stay.
Go and stay. ****Chorus****
Wait'in every day
till my mind go melt [?]
or you ever come back
Stick around till the sky turn black
And I hear you say
"I'm on my way."
Got me under your thumb
what a big fun
come around be my moon and the sun
till the day that we're done
****Chorus**** Waitin' every day
Waitin' every day
Waitin' every day
Waitin' every day
Waitin' every day
Waitin' every day
Waitin' every day
Waitin' every day
