

Underlined

Crossbreed

Practicing the silence
Muting all the sounds you hear
Someone's getting violent
Cutting off the ends you steal
Signs of foward progress
Still wrapped tight inside and sealed
Free me from this madness
And I'll never look back to heal
Silence in your sleep
People they are weak
I'm cutting all the connections
That lead you two to speak
Death is a disease
And people they believe
Almost out of time
I said you're underlined
Death is a disease
And people they believe
Almost out of time
I said you're underlined
Practicing the silence
Underlined from all your pain
Slowly slipping backwards
Calling out God's name in vain
Signs of foward progress
Chanting as your alomst free
You whispered to me
And told me that your life wasn't me
Death is a disease
And people they believe
Almost out of time
I said you're underlined
Death is a disease
And people they believe
Almost out of time
I said you're underlined
Another day in another week
Which type of death is a disease
You're so damn blind and so am I
Your underline
Another day in another week
Which type of death is a disease
You're so damn blind and so am I
Your underline
Death is a disease
And people they believe
Almost out of time
I said you're underlined
Death is a disease

And people they believe
Almost out of time
I said you're underlinedTurn

Away

Turn

Away

Turn

Away

Turn

AwayDeath is a disease
And people they believe
Almost out of time
I said you're underlinedDeath is a disease
And people they believe
Almost out of time
I said you're underlinedDeath is a disease
Death is a disease
Death is a disease
I said you're underlined
