

# The Secret Life of Dr Calgori

## Abney Park

Test tubes and Tesla coils,  
clockwork brain 'n' glowing oils,  
copper, brass, explosive jelly,  
his mechapede policed Old Delhi.  
Invented the radio transmitting Toe.  
Played poker with Theremin, Tesla and Poe.  
Harnesses cold moonlight to power airships  
and distilled antitoxins from postnasal drips. Entropy  
fading his life away  
before the world could ever see  
dissipating, evaporating  
Hired and sacked behind locked doors,  
a man in uniform fighting cold wars.  
Invented steam soldiers and taught them to fight  
and they stopped things going bump in the night.  
All his accomplishments hidden for life.  
His genius's top secret even from his wife.  
An aged wrinkled genius, his memory fading.  
His fates, his creations, the government evading.(2x)  
Entropy  
fading his life away  
before the world could ever see  
dissipating, evaporating.  
Test tubes and Tesla coils,  
clockwork brain 'n' glowing oils,
