## Gavin DeGraw

I'm a poor, I'm a rich  
I'm a mountain, and a ditch  
I'm a dagger, and a shield  
I'm impatient, I'm a yield  
And I wanna be free  
Wind in my hair  
Salt on my skin  
Sun in the air  
I have to feel love  
Holding on me  
I'll give you everything that you would ever need  
I'm the fight and the dance  
I am heartbreak and romance  
The feather and the stone  
I feel crowded and alone  
And I wanna be free  
Wind in my hair  
Salt on my skin  
Sun in the air  
I have to feel love  
Holding on me  
I'll give you everything that you would ever need  
And every once in a while  
I wanna sit back and enjoy the view  
I'm feeling my senses  
But woman my life has been surrounded by fences  
But I found some that I could see through  
I could see through  
And I wanna be free  
Wind in my hair  
Salt on my skin  
Sun in the air  
I have to feel love  
Holding on me  
I'll give you everything that you would ever need  
Everything that you would ever need
