

# All Said and Done (feat. DeJ Loaf)

## Chevy Woods

These are the niggas that I die for  
Something go down I know they gong roll  
Got new money and got new bitches too  
But no room for new niggas, I don't know  
Til its all said and done  
Til its all said and done  
Said and done  
Said and done  
Til its all said and done

These are the niggas that I die for  
Something go down I know they gong roll  
Got new money and got new bitches too  
But no room for new niggas, I don't know  
Til its all said and done  
Til its all said and done  
Said and done  
Said and done  
Til its all said and done

Uh, yeah, uh

I got a call from my dog doing fed time  
Said he would have did it different from his past time  
100 books and he ain't ever read a lick  
He stressed out by his kids baby momma bi\*\*h  
Said he heard she bust it open just to pay the rent  
The judge took him out the game now he play the bench  
Damn, man the feds said he been the target  
Cop a 2 chickens, all white across the market  
Shit, these ni\*\*as foul they would leave their kids  
Just to get you jammed up on the longer biz  
And how I make it through to make it here  
When the dopes start falling off every year  
Yeah, and when you need friends they never there  
That jealousy ain't no game, I got mellow gear  
Uh, so I can't feed you off my plate homie

I tried to offer you change you looked the other way homie These are the ni\*\*as that I die for

Something go down I know they gong roll  
Got new money and got new bi\*\*hes too  
But no room for new ni\*\*as, I don't know  
Til its all said and done  
Til its all said and done  
Said and done  
Said and done

Til its all said and done These are the ni\*\*as that I die for  
Something go down I know they gong roll  
Got new money and got new bi\*\*hes too  
But no room for new ni\*\*as, I don't know  
Til its all said and done  
Til its all said and done  
Said and done  
Said and done  
Til its all said and done  
Act the life you once it could be a problem  
Be with the same s\*\*t that came from the botton, yeah  
I'm still in pain from this bottle  
For my ni\*\*as who was here but can't live for tomorrow  
But you took all them shots when them boys slid beside ya  
Its just business, never personall'm tryna end you, and this gon be the closed curtain flow  
Always act like you got it but really hurting though  
It ain't no game so why you laughing I just wanna know  
Don't even act like you love me or something  
And ain't no roof with the push of a button  
All hood that's all in or nothing  
That's just the way you gotta be when you stand up for something  
If you ain't with it, don't jump in the fire  
He talking crazy and he ain't wearing no wire These are the ni\*\*as that I die for  
Something go down I know they gong roll  
Got new money and got new bi\*\*hes too  
But no room for new ni\*\*as, I don't know  
Til its all said and done  
Til its all said and done  
Said and done  
Said and done  
Til its all said and done  
These are the ni\*\*as that I die for  
Something go down I know they gong roll  
Got new money and got new bi\*\*hes too  
But no room for new ni\*\*as, I don't know  
Til its all said and done  
Til its all said and done  
Said and done  
Said and done  
Til its all said and done
