

# Wildstar (feat. Foxes)

Giorgio Moroder

I keep dancing in my dreams  
Pirouette into your arms  
Flying high like you wouldn't believe  
Wishing on weightless heart I got carried away on an endless dream  
Probably took it way too far  
When the glitter falls into the light  
I'll be dancing like a wildstar Ahhh, ahhh, ahhh  
Glitter falls into the light  
And I'll be dancing like a wildstar Light up  
Light up  
Light up the star  
Light up  
Light up  
Light up the star  
I keep dancing in my dreams  
Pirouette into your arms  
Flying high like you wouldn't believe  
Wishing on weightless heart I got carried away on an endless dream  
Probably took it way too far  
When the glitter falls into the light  
I'll be dancing like a wildstar Ahhh, ahhh, ahhh  
Glitter falls into the light  
And I'll be dancing like a wildstar Light up  
Light up  
Light up the star  
Light up  
Light up  
Light up the star  
Dancing like a wildstar  
Dancing like a wild  
Dancing like a wild  
Dancing like a  
Dancing like a  
Dancing like a  
Dancing like a  
Dancing, dancing, dancing, dancing Glitter falls into the light  
And I'll be dancing like a wildstar  
Glitter falls into the light  
And I'll be dancing like a wildstar Ahhh, ahhh, ahhh  
Glitter falls into the light  
And I'll be dancing like a wildstar  
Ahhh, ahhh, ahhh

Glitter falls into the light  
And I'll be dancing like a wildstar  
Dancing like a wildstar  
Dancing like a wildstar  
Glitter falls into the light  
And I'll be dancing like a wildstar
