Am I Awake?

They Might Be Giants

Am I awake? What time is it? When I get through this day

Can someone tell me how

And how much longer now

Am I awake? The coffee's cold, did I forget to drink it yet

Did I forget?

My clothes are wet I don't remember drinking itWhen I get through this part

Will the next one be the same

Will I be wondering

If I'm awake?

These are not the clothes I had on when I went to bed

And something else besides my hair is growing from my head

And when I close my eyes it looks the same as when I open them againAm I awake?What time is it?Is it that time again?

Wasn't it already then?

So does it have to be

The time it was againWhen I get through this day

Can't someone tell me how

And how much longer now

Am I awake?

Am I awake? When I get through this day

Can someone tell me how

And how much longer now

Am I awake?

When I get through this day

Can someone tell me how

And how much longer now

Am I awake?
