

# My Valentine (feat. Coko of SWV)

## Keith Sweat

Yeah, yeah, would you be my  
Oh yeah, yeah, would you be my  
Would you be my, yeah, yeah, yeah, oh girl Everything is so crystal clear  
To think about the three four years I've been with you  
And it's about to get real in here  
'Cause it ain't no reason I shouldn't be one with you So what are you saying here since we're  
being crystal clear?  
Are you telling me now we should both give up the game?  
Although we both made mistakes, there's no one I'd rather take  
'Cause without you my life just won't be the same Oh, would you, would you be my valentine?  
Out of all the girls in the world I just want you  
Baby yes, I'll be your valentine  
'Cause I'm ready when you ask me, I do  
Would you be my valentine? Talking about being my wife  
I need you in my life forever Yes, I'll be your valentine  
I'll be glad to be your wife  
'Cause I need you in my life forever Baby, you're like the part of me  
Girl, when you cry loud I feel it in my eye, yeah  
This will be for eternity  
Make a pact together, never will we part no more I have some rarity, a beautiful jewel I found  
You and me together feel like handing love  
The love that you give to me, these feelings are so profound  
That's why maybe no one can take this love  
Oh, would you be my valentine?  
Out of all the girls in the world I just want you Baby yes, I'll be your valentine  
'Cause I'm ready when you ask me, I do  
Be ready when I answer too, baby Be my valentine, talking about being my wife  
I need you in my life forever Yes, I'll be your valentine  
I'll be glad to be your wife  
'Cause I need you in my life forever Said if you love your woman, you wanna keep up  
Show her that you mean it, you really need her  
(You need no excuses, go and man up)  
Get on one knee and ask for her hand yeah, yeah You feel it inside, you put your hands way up  
If you think it's the one worthy of all your love  
Love him and please tell him that you'll never leave him  
Find a way to treat him like you did in the beginning Oh, would you be my valentine, baby?  
Out of all the girls in the world I want you Baby yes, I'll be your valentine  
'Cause I'm ready when you ask me I do  
Be ready when I answer to, baby Be my valentine, talking about being my wife  
I need you in my life forever Yes, I'll be your valentine  
I'll be glad to be your wife  
'Cause I need you in my life forever So would you be my, would you be my

Would you be my, my valentine?  
Would you be my, would you be my  
Would you be my, oh yeah, yeah, yeah, yeah Be my valentine, talking about being my wife  
I need you in my life forever Yes, I'll be your valentine  
I'll be glad to be your wife  
'Cause I need you in my life forever
