

Some Guys Have All the Love

Little Texas

(Porter Howell/Dwayne O'Brien)

(Track 1 - Time 2: 52)Some guys have all the luck

There's gold in everything they touch

But all of the work I've done

Never did amount to muchI don't live what some call the good life

But I've got a good life with youSome guys have all the money

Fame and fortune we all dream of

But I thank the stars above me

That I've got you and that's enough

Some guys have all the love

No matter how good my plan is

It always seems to come undone

In a lifetime of takin' chances

You're the only thing I've wonI'm still not what some call a winner

But with you there's no way I can loseSome guys have all the money

Fame and fortune we all dream of

But I thank the stars above me

That I've got you and that's enough

Some guys have all the loveWell I guess I'm what some call a dreamer

But at least I've had one that came true

Some guys have all the money

Fame and fortune we all dream of

But I thank the stars above me

That I've got you and that's enough

Some guys have all the love

Some guys have all the love

Some guys have all the love
