

VOICES (feat. XXXTENTACION)

Skye

Yeah, ayy, ayy, ayyAt night I lie awake trying to fightThe voices in my?head?(Voices in my?
head)

Visions of you racing, racing, playing

It's all inside my head (It's all inside my head)

Messed up too many times, some things are better left unsaid

At night I lie awake trying to fight the voices in my headGirl, why you tryna save me? You
should just save yourself

If I said that we could make it, I'd be lying to myself

Wishing I could hit reset, bad decisions I regret

Now you're talking to your ex, yeah, I'm sad, I know, like X, baby

Ayy, slashin' on the - like a battle axe, uh

Got a bigger, bigger than a Cadillac, uh

N- blind to drip, they got cataracts

F- my baby momma on a m- yoga mat, uh

Hunnid phone, hunnid phone, backtrack

Laughing at these n- like I'm m- Flapjack, uh

I don't f- gamble, f- blackjack

School of rockin' n- like I'm m- Jack Black, uh (Yuh, yuh)At night I lie awake trying to fight

The voices in my head (Voices in my head)

Visions of you racing, racing, playing

It's all inside my head (It's all inside my head)

Messed up too many times

Some things are better left unsaid (Oh yeah, oh yeah)

At night I lie awake trying to fight the voices in my head

This will be my best side

Now I feel like suicide

Baby, are you switching sides?

Why you out here telling lies?

It could have been you and I

Thought you were my ride or dieAt night I lie awake trying to fight

The voices in my head (Voices in my head)

Visions of you racing, racing, playing

It's all inside my head (It's all inside my head)

Messed up too many times, some things are better left unsaid

At night I lie awake trying to fight the voices in my headVoices in my head

Voices in my head

Voices in my head

Voices in my head

Voices in my head

Voices in my head

Voices in my head
