Gravitate to Me

The The

I've been watching you for ages
You're like a boat without a mast
Struggling with the tide of destiny
Between the future and the pastI am the lighthouse

I am the sea

I am the ait that you breathe Gravitate to meThrough the ether

And the mists of the mind

You will come to me

To lay by my side

To stroke my hair

To cuddle my flesh

And to quell the torrents

In my subterranean depths

This world ain't strong enough

To keep us from each other

For we are kindred spirits

Born to become Earthly loversI am the lighthouse

I am the sea

I am your destiny

Gravitate to meThere is something within your voice

Something behind your eyes

Something inside your heart

That is beating in time with mine

I know you

From a previous incarnation

I know you

From a previous incarnation

I know you!

From a previous incarnationGravitate to me, gravitate to me Gravitate to me, gravitate to me
