Chyna Black

Anthony Hamilton

Verse I

Chyna Black is like an open road

Takes me places releases my soul

Ain't it funny how life goes

Takes a turn through a journey unknownNo hesitation no tug no pulls

Aint no need of fighting for what's yours

A little smile releases old smoke

Just take the ride read the signs and hold on. Chorus

You're what I want

You're what I need

Give me reason to just to breath

You're everything I'm hoping for give me love and so much more

You're what I want

You're what I need

You touch the deepest part of me

Verse II

Chyna Black is like my old ford

Picks me up helps carry the load

I can depend on when times are cold

Soothes my body like mom's old robe. No hesitation no tug no pull

Ain't no need of fighting for what's yours

A little smile release old smoke

Just take the ride read the signs and hold on. Chorus

You're what I want

You're what I need

Give me reasons just to breath

You're what I want

You're what I need

You touch the deepest part of me

You're what I want

You're what I need

Give me everything/ give me everything

Give me everything/ that I need

Give me everything/ give me everything

what would I do without youChyna Black is like an open road
