

# Singin' at the Stars

## LANCO

Baby you look so good  
Sitting on the car hood  
I got a front row seat to the best show  
Freeze frame, memory made  
No money, no plans  
But I know we can find a little spot where we don't need that  
Yeah I know you know where it's at You and me, singin' at the stars  
Moving real slow, falling real hard  
I wouldn't wanna be anyone but who we are, who we are  
We could stay all night or a whole lot longer  
Kiss me like that and I'm a goner  
It's a sweet song and I know it by heart  
It's you and me, singin' at the stars  
Slow dancing in the clovers  
Over and over  
Hands on my shoulders, couldn't be closer  
And the radio ain't even on  
You in the moonlight couldn't be more right  
I lose all track of time but I don't mind  
If we dance until the dawn You and me, singin' at the stars  
Moving real slow, falling real hard  
I wouldn't wanna be anyone but who we are, who we are  
We could stay all night or a whole lot longer  
Kiss me like that and I'm a goner  
It's a sweet song and I know it by heart  
It's you and me, singin' at the stars  
Singin' at the stars  
Singin' at the stars  
Ohhh  
Ohhh  
Ohhh  
Ohhh  
Singin' at the stars You and me, singin' at the stars  
Moving real slow, falling real hard  
I wouldn't wanna be anyone but who we are, who we are  
We could stay all night or for a whole lot longer  
Kiss me like that and I'm a goner  
It's a sweet song and I know it by heart  
It's you and me, singin' at the stars  
Singin' at the stars Ohhh  
Ohhh  
Ohhh

Ohhh
