

So Now What

The Shins

I had this crazy idea
Somehow we're close to the end
Change lives in every direction
Guess we'll just begin again Oh girl, it's been a while
Since we met, out there in the cold
Seems so long ago
It's hard to imagine
The lives we used to have
When the nights were [?]
So now what? I had this crazy idea
Somehow we're close to the end
Change lives in every direction
And I guess we'll just begin again
I think you know you're my best friend
It's one of them unspoken rules
If things would not turn out the way we planned
You know that I would hurt
I can handle all of that
If I can still take you there And you still think I am strong
But I admit that I was wrong
So now what? I had this crazy idea
Somehow we're close to the end
Change lives in every direction
And I guess we'll just begin again
I hope you know you're my best friend I had this crazy idea
Somehow we're close to the end
Change lives in every direction, tonight
And I guess we'll just begin again
I hope you know you're my best friend
I guess we'll just begin again
I guess we'll just begin again
I guess we'll just begin again
I guess we'll just begin again
I guess we'll just begin again
I guess we'll just begin again
I guess we'll just begin again
