## **My Gospel**

## **Charlie Puth**

I'd stroll into a bank and put a ski mask on And walk out with a million bucks! Then I'd burn it in a pile out on your front lawnJust to prove it didn't mean that much I'd sell everything I own, take a pile of cash Walk into the casino, blow it all on black Then blow all of my winnings on a limousine To make out with you in the back, hey...I'm not afraid to look insane 'Cause I'm crazy about you There's nothing that I won't do Just to make you love me, love me, love me Throw away my pride for you Just to make you love me, want me, trust me Baby, I know I'm not ashamed Just need you and I could care less If everyone knows that I'm your fool Girl there's nothing I won't do Just to make you love me, love meI'd buy a couple red-eye one-way tickets to Paris doing first class rate Then I'd carry your body to the top of the tower to kiss your lips at midnight Then we'll wander through the streets, and drink champagne Get drunk and start singing in the pouring rain I'll acapella karaoke "Sexy Thing", cause baby I feel no shame Say this whole world can know you're all I need Cause baby some day I'll drop and hit one knee and tell you I'm not afraid to change your name Cause I'm crazy about youThere's nothing that I won't do Just to make you love me, love me, love me Throw away my pride for you Just to make you love me, want me, trust me Baby, I know I'm not ashamed Just need you and I could care less If everyone knows that I'm your fool Girl there's nothing I won't do Just to make you love me, love me, love meHey, ah-ah-ah Throw myself out of every jet plane Hundred feet a second just screaming your name Ah-ah-ah I see the cop car turn blue lights on Pick you up driving around 'til dawn I'm not afraid to look insane Cause I'm crazy about youOh, oh, oh I'm not afraid to look insane Cause I'm crazy, crazy, crazyThere's nothing that I won't do

Just to make you love me, love me, love me Throw away my pride for you Just to make you love me, want me, trust me Baby, I know I'm not ashamed Just need you and I could care less If everyone knows that I'm your fool Girl there's nothing I won't do Just to make you love me, love me Song Discussions is protected by U.S. Patent 9401941.
